SUBJECT INDEX

- ADCC
 - against erythrocytes, 613
- African trypanosomiasis
 - interferon production in, 135
- Age
 - humoral immune response in, 387
- Alcoholic cirrhosis
 - IgA in, 499
- Allografts
 - survival prediction of, 13
- Alpha-fetoprotein
 - relationship with lymphocyte transformation, 381
- Androgens
 - effect of in aged mice, 229
- Antibodies
 - against RLSP in hepatitis, 437
 - BSA retention mediated by, 280
 - cross-reaction of in multiple sclerosis, 98
 - impaired primary response in nephrotic syndrome, 595
 - lysis of erythrocytes by, 129
 - penetration of into living cells, 365
 - secondary response of, 121
 - synthesis of in multiple sclerosis, 241
 - to insulin in diabetes, 575
- Antibody production
 - B cell growth factors overcome inhibition of, 635
- Amyloid fibril proteins
 - comparative studies of in normal tissues, 693
- Anti-nuclear antibodies
 - present in rheumatoid vasculitis, 333
- Anti-tubulin antibodies
 - present in autoimmune thyroid disorders, 325
- Arachidonic acid
 - need for metabolism of in bronchial provocation reaction, 393
- Autoantibodies
 - against LSP, 89
 - IgG subclasses in, 61
 - reactive to cell surfaces, 341
- Autoantigens
 - absence of allotypic variation in Graves' disease, 317
- Autoimmune diseases
 - effect of isoprinosine in, 67
- Autoimmune thyroid disorders
 - anti-tubulin antibodies in, 325
- B cell growth factors
 - action inhibited antibody production, 635
- B cells
 - maturation stimulated by *K. pneumoniae*, 372
- Benzopyrene
 - selective immunosuppression by, 199
- B lymphocytes
 - maturation of, 655
- Bovine serum albumin
 - retention by hyaline articular cartilage, 280
- Bronchial provocation
 - late reacts following, 393
- C1q
 - binding to fibronectin in SLE, 305
- influence of immune complexes on assay for, 543
- role of in platelet and IgG interaction, 423
- C3 nephritic factor
 - meningococcal meningitis associated with, 153
- C4 deficiency
 - association with Sjögren's syndrome, 551
- Cells
 - antibody penetration into, 365
- Central nervous system
 - pathological changes in, 115
- Cerebrospinal fluid
 - T lymphocyte clones from, 38
- CFA/I
 - loss of expression by *E. coli*, 293
- Chagas' disease
 - increased IgA levels in, 266
- Chronic active hepatitis
 - lymphocyte activity in, 472
- Circulating immune complexes
 - association with Sjögren's syndrome, 551
 - present in diabetes, 164, 575
 - present in mixed parasite infection, 144
 - present in toxoplasmosis, 157
- Cirrhosis
 - IgA in alcoholic forms, 499
- Clinical immunologists
 - functions and training of, 702
- Complement
 - lysis of erythrocytes by, 129
- Complement breakdown products
 - levels in pleural effusions, 569
- (+) Cyanidanol-3
 - T cell suppressor function activation by, 430
- Cyclosporin A
 - acute serum sickness nephritis inhibited by, 586
 - suppressed hypersensitivity and lymphokine production by, 599
- Cytomegalovirus
 - autoantibodies in, 89
- Cytotoxicity
 - blocking of in pregnancy, 648
- Delayed hypersensitivity
 - suppressed by cyclosporin A, 599
- Diabetes mellitus
 - CIC in, 164
 - insulin antibodies and CIC in, 575
- Erythrocytes
 - ADCC against, 613
- Escherichia coli*
 - loss of CFA/I expression by, 293
- Fibronectin
 - binding to C1q in SLE, 305
- Glucocorticoid
 - lymphocyte mitogenesis inhibitory capacity of, 477
- Granulocytes
 - measurement of in inflammation, 607
- Graves' disease
 - lack of allotypic variation in autoantigens in, 317
 - lymphoid T cell subpopulations in, 311

- Hepatitis
 - immunoregulatory mechanisms in, 250
 - lymphocyte activity in, 472
 - RLSP antibodies in, 437
- Hepatocellular carcinoma
 - IgG heavy chain allotypes in, 493
- HLA antigens
 - enhancement of by interferons, 173
- HLA-DR3
 - control of response to new tuberculin by, 287
- Hodgkin's disease
 - lymphocyte counts and functions in, 485
- Hyaline cartilage
 - retention of BSA by, 280
- Hyperglycaemia
 - immune reactions in, 54
- Hypocomplementaemia
 - due to C3 nephritic factor, 153
- Hypoinsulinaemia
 - immune reactions in, 54
- IgA
 - increased levels in Chagas' disease, 266
 - present in alcoholic cirrhosis, 499
 - role of liver in regulating, 207
- IgE
 - induced synthesis of, 85
- IgG
 - present in rheumatoid vasculitis, 333
 - role of in platelet and aggregated IgG interaction, 423
 - subclass distribution of, 61
- IgG allotypes
 - present in hepatocellular carcinoma, 493
- Immune complexes
 - influence of lattice of on C1q assay, 543
- Immune complex assays
 - low molecular weight material reactivity in, 407
- Immune exclusion
 - genetic differences in, 678
- Immune reactions
 - IgE-mediated forms, 54
- Immune response
 - in age, 387
 - influence of oral immunization on, 399
- Immunoglobulins
 - IUIS/WHO notice on uses of, 417
 - synthesis of in rheumatoid arthritis, 505
- Immunoregulatory systems
 - studies of in hepatitis B, 250
- Immunosuppression
 - caused by benzopyrene, 199
- Infectious mononucleosis
 - inhibited lymphocytotoxicity in, 671
- Inflammation
 - granulocyte migration and accumulation in, 607
- Inflammatory bowel disease
 - E rosetting lymphocytes in, 350
- Interferon
 - enhancement of HLA antigens by, 173
 - production of, 135
 - recruitment of lymphocytes by, 185
- Isoprinosine
 - immunomodulation by, 67
- K-562 tumour cells
 - binding to lymphocytes, 185
- κ chain
 - detection of by monoclonal antibodies, 234
- Leprosy
 - T cell response in, 107
- Leucocytes
 - identification of by monoclonal antibodies, 179
- Leukotriene B₄
 - schistosomula killing, enhanced by, 519
- Liver
 - role in regulating IgA, 207
- Liver disease
 - application of (+) cyanidanol-3 in, 430
- Liver specific lipoprotein
 - autoantibodies to, 89
- Lymphocyte blastogenesis
 - increased B type in CAH, 472
- Lymphocyte blastogenesis
 - suppression of in *O. volvulus* infection, 259
- Lymphocyte mitogenesis
 - glucocorticoid inhibitory capacity in, 477
- Lymphocytes
 - accessory cell requirements in T type proliferation, 355
 - changes in, following radiolabelling, 665
 - counts and functions of in Hodgkin's disease, 485
 - diminished T rosette levels in CAH, 472
 - effect of isoprinosine on, 67
 - effect of monocytes, PAMs and macrophages on response of, 449
 - E rosetting type in inflammatory bowel disease, 350
 - Ig synthesis by in RA, 505
 - Leu-7 identifies expansion of, 641
 - NK activity of, 191
 - recruitment of by interferon, 185
 - subpopulations of in small intestine, 219
 - thyroid autoantibody synthesis by, 45
 - T subpopulations in nephrotic syndrome, 581
- Lymphocyte transformation
 - relationship with pregnancy and alpha-fetoprotein, 381
- Lymphocytotoxicity
 - inhibited by human serum, 671
- Lymphokines
 - suppressed production of by cyclosporin A, 599
- Macrophages
 - effect on lymphocyte responses, 449
- Mice
 - effect of androgen therapy in, 229
- Monoclonal antibodies
 - analysis of E rosetting lymphocytes by, 350
 - B lymphocyte maturation studied with, 665
 - detection of κ chains by, 234
 - identify granular lymphocyte expansion with, 641
 - leucocyte phenotype identified by, 179
 - M. leprae* antigenic determinants defined by, 528
- Monoclonal IgM
 - produced by immunization with *T. pallidum*, 537
- Monocytes
 - defective function in pyoderma gangrenosum, 685
 - effect on lymphocyte responses, 449
 - suppressor effect of in age, 387
- Multiple sclerosis
 - antibody cross-reaction in, 98

- intrathecal antibody synthesis in, 241
- Muscle myosin
 - radioimmunoassay for antibodies to, 297
- Mycobacterium leprae*
 - antigenic determinants defined, 528
 - characteristic phenolic glycolipid from, 271
 - T cell response to, 107
- Myelin basic protein
 - antibodies to, 98
- Natural killer activity
 - analysis of in small intestine, 191
- Nephrotic syndrome
 - impaired primary antibody response in, 595
 - T lymphocyte subpopulations in, 581
- OKT4⁺ cells
 - action on T cells, 29
- Onchocerca volvulus*
 - suppression of lymphocyte blastogenesis by, 259
- Oral immunization
 - influence on immune responses, 399
- Osteopetrosis
 - premature thymic involution in, 465
- Ovarian cancer
 - immune complex components in, 561
- Parietal cells
 - surface reactive autoantibodies in pernicious anaemia, 341
- Partial antigen tolerance
 - genetic differences in, 678
- Pernicious anaemia
 - parietal cell surface autoantibody in, 341
- Phenolic glycolipid
 - serological activity of from *M. leprae*, 271
- Plasmodium chabaudi*
 - secondary antibody response to, 121
- Pleural effusions
 - complement product levels in, 569
- Pokeweed mitogen
 - lymphocyte markers and response to, 45
- Polymyositis
 - antibodies to muscle myosin in, 297
- PPD
 - T cell response to, 107
- Pregnancy
 - factor blocking cytotoxicity in, 648
 - relationship with lymphocyte transformation, 381
- Pulmonary alveolar macrophages
 - effect on lymphocyte responses, 449
- Pyoderma gangrenosum
 - defective monocyte function in, 685
- Radioimmunoassay
 - for antibodies to muscle myosin, 297
- Radiolabelling
 - cell change induced by, 665
- Reticuloendothelial function
 - association with Sjögren's syndrome, 551
- Rheumatoid arthritis
 - Ig synthesis by lymphocytes in, 505
 - immune complex components in, 561
 - rheumatoid factors in, 75
- Rheumatoid factors
 - present in rheumatoid vasculitis, 333
- Rheumatoid vasculitis
 - IgG RFs and ANAs in, 333
- Schistosoma mansoni*
 - killing of enhanced by leukotriene B₄, 519
- Semliki forest virus, 115
- Serum sickness nephritis
 - inhibited by cyclosporin A, 586
- Serum thymic factor
 - cells containing in mice, 1
 - feed-back regulation of, 7
- Sjögren's syndrome
 - association of with various immune functions, 551
- Small intestine
 - lymphocyte subpopulations in, 219
- Systemic lupus erythematosus
 - C1q and fibronectin co-precipitation in, 305
- Systemic sicca syndrome
 - rheumatoid factors in, 75
- T-cells
 - activation of suppressor function by (+) cyanidanol-3, 430
 - helper activity induction, 512
 - heterogeneity of in thyroid autoimmunity, 629
 - response of in leprosy, 107
 - selective expansion of, 21
 - subpopulation localization in Graves' disease, 311
 - suppression of induced proliferation, 29
- Therapy
 - influence of on CIC, 144
- Thymic hormone
 - cells containing, 1, 7
- Thymic involution
 - associated with osteopetrosis, 465
- Thymocytes
 - kinetic responses of in age, 455
- Thyroglobulin
 - effect on thyroid autoantibody synthesis, 620
- Thyroid
 - autoantibodies to, 45
- Thyroid autoantibody
 - effect of thyroglobulin on synthesis of, 620
- Thyroid autoimmunity
 - T cell heterogeneity in, 629
- T lymphocytes
 - accessory cell requirements in proliferation of, 355
 - growth of clones of, 38
 - prediction of graft survival by, 13
- Toxoplasmosis
 - CIC in, 157
- Treponema pallidum*
 - monoclonal IgM produced by immunization with, 537
- Trypanosoma brucei*
 - helper T cell activity induction by, 512
- Tuberculin
 - control of response to by HLA-DR3, 287
- Tuberculosis
 - complement breakdown products in, 569
- Virus antigens
 - intrathecal antibodies to in MS, 241
